

Principal Sharpens Teachers during School Holidays

Principal, Mr Sydney Teme , involved his staff during the Winter Holidays, in reviewing their Lesson Planning and Assessment skills.

Working purely off the Revised National Curriculum for the Foundation and Intermediate Phase, Mr Teme reminded his teachers of the value of staying on course as far as expectations and goals are concerned.

"We know that a better understanding of the curriculum is vital to providing quality for our learners," said Mr Teme. He added that the initiative was also important in view of the planned [M-Ubuntu](#) project involving the use of Mobile phones in learning.
